### Speaker Tomoka Nakamura

Tomoka Nakamura is an infectious disease epidemiologist and currently a PhD candidate at the London School of Hygiene and Tropical Medicine and Nagasaki University. Previously, she was a Technical Officer at the World Health Organization headquarters working in vaccine preventable disease surveillance focusing on invasive bacterial diseases and pediatric diarrhea. She studied at the Johns Hopkins Bloomberg School of Public Health for her master's degree in epidemiology. Her professional experience includes working at PATH (Seattle, WA) in malaria diagnostics and at the Fred Hutchinson Cancer Research Center (Seattle, WA) in pediatric bone marrow failure syndromes.
